

SchoolNetwork

SchoolNetwork is a networking platform for K12 District Administrators

View and share funding project documents, review solution providers
and advertise RFP/RFQs

SchoolNetwork makes the funding process
more seamless for school district administrators,
increases competition among solution providers
and thereby drives costs down for school districts.

With **SchoolNetwork** at your fingertips your District can open new doors to K12 funding research allowing the successful crafting and communication of your bond funded and other capital projects

Intelligent Networking

Our in-depth knowledge of K12 school districts throughout the U.S., backed by renowned funding experts and state of the art technology, puts networking and communicating with districts similar to your own right at your fingertips. Filter on what is specific to your need and district size to find the most relevant information quickly and easily. Communicate with those districts to ensure best practices and make successful funding requests.

Proactive, Timely Updates

Choose your preferences and receive alerts on the latest bonds that pertain to your selected geography and area of interest. In a few clicks you choose what you want sent to you and how frequently you want to receive notifications.

Detailed Contact Information

Each bond contains key district employee contact information to get you to the right people faster. Conversations are more effective when the right people are identified.

SchoolNetwork Benefits:

- Everything you need to know assembled in one convenient location saves hours of searching and creating funding documents.
- Increased knowledge of watch list, proposed, passed and failed bonds to see what others have done and how they've been successful.
- Query and filter by state, bond type, amount, and status. Pinpoint exactly what you need.
- Find the right people faster. Each bond contains key contact information, along with a link to specific local coverage or articles.
- Create proactive marketing materials and messaging.

SchoolNetwork

K12 Funding Data & Research

Identify and track other districts with similar needs.

Rate & Review Solution Providers

Ensure that who you hire is the best fit for your district.

Upload, Download and Share Funding Documents

Save valuable time and increase your chance of success by collaborating with others.

Advertise Funding Requests Nationwide

RFP/RFOs can be advertised and will then be pushed nationwide to solution providers thereby, increasing your responses and driving costs down.

Beyond the Data, Train for Success

Navigating the funding process can be a challenge. Give your staff the personalized coaching they need to properly draft funding requests, and communicate with districts nationwide who have successfully navigated similar initiatives.

- Receive complimentary training and access to tutorials to hit the ground running
- Obtain knowledge and tips from our funding expert led webinars
- Our monthly newsletters update you on key industry and district trends and innovative functionalities
- Use our market research reports to track funding cycles and passage rates, nationwide.
